

Bereket Tsegaye

Software Engineer | Full-Stack Developer

Software Engineering graduate and Full-Stack Developer skilled in building modern websites and software solutions using React, Node.js, MySQL, and MongoDB. Experienced in developing REST APIs, authentication systems, database solutions, and responsive user interfaces. Passionate about creating practical solutions to real-world problems.

@ bbekijunior@gmail.com in bereket-tsegaye BekiJunior +251 961 196 468 Ethiopia

TECHNICAL SKILLS

- **Frontend:** JavaScript (ES6+), React.js, Next.js, React Native, Material UI, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Database:** MySQL, MongoDB, Database Design
- **Tools:** Git/GitHub, Docker

EDUCATION

B.Sc. Software Engineering

Debre Markos University 2021 – 2026

- Studied software development, database systems, algorithms, networking, and mobile development.
- Developed multiple full-stack academic and personal projects.

EXPERIENCE

IT Support Intern

Commercial Bank of Ethiopia (CBE) 2025 Debre Markos, Ethiopia
Keywords: Network Configuration, Hardware Support, Software Troubleshooting

- Provided technical support for hardware and software issues.
- Assisted with network configuration and system maintenance.
- Supported employees with IT-related problems and troubleshooting.

Full-Stack Developer

Personal Projects 2024 – Present Remote
Keywords: React, Node.js, MySQL, MongoDB

- Built production-style websites using modern frontend and backend technologies.
- Designed REST APIs, database schemas, authentication systems, and responsive interfaces.
- Implemented secure user authentication using JWT and password hashing.

FEATURED PROJECTS

SAMI CARE RENTAL SYSTEM

- Developed a full-stack vehicle rental website using React.js, Node.js, Express.js, and MySQL.
- Implemented authentication, role-based access control, vehicle management, reservations, rental tracking, and an admin dashboard.
- Designed a relational database structure for customers, vehicles, reservations, payments, and system logs.
- Added rental analytics features to provide insights into booking activities and business performance.

E-COMMERCE WEBSITE

- Developed a complete e-commerce website using React.js, Node.js, Express.js, and MongoDB.
- Implemented product management, category organization, image handling with Cloudinary, and responsive user interfaces.
- Built RESTful APIs and reusable frontend components to deliver a modern and user-friendly shopping experience.

OTHER DEVELOPMENT PROJECTS

Bus Ticket Booking System
React.js, Node.js, MySQL

Employee Management System
Full-stack CRUD management system

Movie Website
React.js, TMDB API

URL Shortener
Node.js, MongoDB
