TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, HTML5, CSS3, SQL
- **Frontend Development:** React.js, Next.js, Tailwind CSS, Material UI, Bootstrap
- **Backend Development:** Node.js, Express.js, REST APIs, JWT Authentication
- **Database:** MySQL, MongoDB, Prisma ORM, Mongoose
- **Tools & Platforms:** Git, GitHub, Postman, VS Code

EDUCATION

B.Sc. Software Engineering

Debre Markos University 2021 – 2026

- Studied software engineering, algorithms, database systems, web development, and software design principles.
- Developed multiple full-stack software projects using modern development technologies.

EXPERIENCE

Full-Stack Software Developer

Personal Projects 2024 – Present Remote

Keywords: JavaScript, React, Next.js, Node.js, TypeScript, MySQL, MongoDB

- Developed full-stack websites and software systems from planning and database design to implementation.
- Built responsive user interfaces and backend services using modern JavaScript technologies.
- Created REST APIs, authentication systems, and database-driven applications.
- Implemented secure authentication using JWT, password hashing, and role-based access control.

IT Intern

Commercial Bank of Ethiopia (CBE) 2025 Debre Markos, Ethiopia

Keywords: Technical Support, Network Configuration, Software Troubleshooting

- Assisted with hardware, software, and network-related technical support.
- Supported daily IT operations and troubleshooting in an enterprise environment.

PROJECTS

AFALAGI - MEDICINE LOCATOR PLATFORM

- Developed a healthcare website that helps users find available medicines in nearby pharmacies.
- Built using Next.js, TypeScript, Prisma ORM, MySQL, Node.js, and Express.js.
- Implemented role-based authentication and dashboards for administrators and pharmacy users.
- Designed database models for users, pharmacies, medicines, and inventory management.

SAMI CARE RENTAL SYSTEM

- Developed a full-stack vehicle rental website using React.js, Node.js, Express.js, and MySQL.
- Implemented authentication, vehicle management, reservations, and rental tracking features.
- Designed relational database structures and reusable frontend components.

E-COMMERCE WEBSITE

- Built an e-commerce website using React.js, Node.js, Express.js, and MongoDB.
- Developed product management, REST APIs, authentication, and responsive user interfaces.

ADDITIONAL PROJECTS

Employee Management System
Full-stack CRUD system

Bus Ticket Booking System
Online reservation platform

Movie Discovery Website
React.js, TMDB API

URL Shortener
Node.js, MongoDB
